

Somerset Standards in Design Amendment

Driveway Standards: Homeowners may replace their concrete driveways with the Brick Pavers in the approved colors and design. The approved colors are Chestnut Buff Charcoal (CBC #623406) and White Coconut Charcoal (WCC #017706). The approved laying design is Eurocobble (6x9 and 6x6 slightly pillowed pavers in random pattern.)

Color of Pavers does not need to match your attached neighbors drive.
